May 28 – May 29, 2018

Behavioral and Experimental Public Choice Workshop

The workshop deals with behavioral and experimental analyses of traditional public choice phenomena (bureaucracies, elections) as well as more behavioral topics, in particular the role of culture, emotions and risk preferences in collective decision-making.

INTRODUCTION

The Laboratory for Experimental Anthropology at Lille Catholic University in collaboration with the Center for Economic Analysis of Risk at Georgia State University, will host the 2nd Behavioral and Experimental Public Choice Workshop on May 28—29, 2018 in Lille, France.

Following the success of our previous workshop, we are delighted to welcome you to the second edition of the Experimental and Behavioral Public Choice Workshop. The objective of the workshop is to gather researchers across disciplines in order to speculate together on how behavioral insights and the experimental method could improve our understanding of traditional public choice phenomena (bargaining, bureaucracies, elections, legislatures) as well as more behavioral topics, in particular the role of culture, emotions and risk preferences in collective decision-making.

THE ORGANIZERS

- Gregory DEANGELO (Claremont Graduate University)
