

Measuring Subjective Risk Perception

19 February 2018 | Victoria University of Wellington | Wellington, New Zealand

<http://cear.gsu.edu>

General Information

This workshop brings together experts in the area of subjective risk perception, with a special emphasis on methods for eliciting subjective beliefs. Topics to be covered include methods for eliciting beliefs in an incentive-compatible manner, the confidence that individuals have in their beliefs, their awareness of possible bias or unjustified levels of confidence, and the manner in which beliefs are updated over time as new information arises. Presentations will be invitation-only, but attendance is open to interested researchers up to capacity. The format will be plenary, with ample time for discussion of issues that arise.

Organizers

The organizers are Professor Glenn Harrison (CEAR, Georgia State University) and Professor Eric Ulm (Actuarial Science, School of Economics and Finance, Victoria University of Wellington). Enquiries about substantive matters should be directed to Professor Harrison at gharrison@gsu.edu, and enquiries about logistics directed to eric.ulm@vuw.ac.nz.

Registration

Must be done here – cear.gsu.edu/event-archives/measuring-subjective-risk-perception - for those wanting to attend.

Location

The workshop will be held on the campus of Victoria University of Wellington in the Rutherford House, **Room: RHMZ03**. Address is 23 Lambton Quay, Pipitea campus, Wellington 6011. Detailed directions can also be found on [the university's website](http://theuniversityswebsite).

PROGRAM

MONDAY – 19 February 2018

09:20 – 09:30	Welcome – Glenn Harrison and Eric Ulm
09:30 – 10:30	Title: “Survey of the Current State of the Experimental Art” Presenter: Glenn Harrison (CEAR, Georgia State University)
10:30 – 10:45	Break for coffee
10:45 – 11:45	Title: “Recovering Subjective Belief Distributions” Presenter: Eric Ulm (Victoria University of Wellington)
11:45 – 12:00	Break for coffee
12:00 – 13:00	Panel: Next Directions “Multivariate Belief Elicitation and Uncertainty Aversion” – Glenn Harrison (CEAR, Georgia State University) “Field elicitation” – Lisa Rutström (Örebro University and CEAR)
13:00 – 14:00	Lunch
14:00 – 16:00	Panel: Open Discussion “Estimating subjective probabilities by inference or conditioning” – Don Ross (University College Cork, University of Cape Town and CEAR) “Joint MSL estimation of risk and beliefs” – Morten Lau (Copenhagen Business School) Lisa Rutström (Örebro University and CEAR) Eric Ulm (Victoria University of Wellington) Glenn Harrison (CEAR, Georgia State University)
